

ART LAB AT HOME! STAYING CREATIVE

This week's activities are creative prompts designed to help you play and experiment at home.

AS FAR AS I COULD GET CHALLENGE

Materials: Camera or camera phone

Grab a camera or camera phone. Set the self-timer button for 10 seconds (grab a helper if your camera doesn't have one). Run away from the camera and into the shot. Repeat. Inspired by photographer John Divola's series *As Far As I Could Get*.

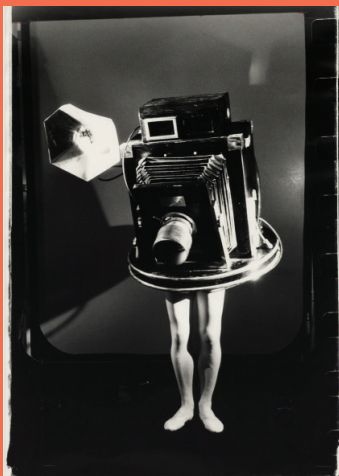

INFINITY

Materials: Found Objects, Camera or camera phone

Get inspired by Yayoi Kusama's infinity room *LOVE IS CALLING*. Find or create the largest infinity in the smallest space. Snap a photo.

IT WALKS

Materials: Found object, paper, drawing materials, scissors

Inspired by Laurie Simmons' *The Walking Series*, find an object in your space and make it seem like it has human parts. Draw it out on a piece of paper; draw your human elements, cut them out and attach them to your object; attach found objects; or create your own method. Snap a photo. Leave as is and wait to see if someone notices your creation.
